1. INTRODUCTION

Ocean Science & Surveying Private Limited (Ocean Science) is an Indian company, operating under Indian Economy. The company is accredited by Indian Registered Quality Systems (IRQS) with Quality Management System ISO 9001:2015, ISO14001:2015, ISO 45001:2018 & ISO 29001:2020. We are one of the few companies in India which have acquired ISO 29001:2020 compliance accreditation to meet the requirement of the offshore Oil and Gas Industry.

Ocean Science provides global specialist multi-disciplinary marine survey support and delivers solutions to the Oil and Gas, Telecommunications, Energy & Renewable and Marine Infrastructure market sectors.

Ocean Science has gained a reputation for professional excellence in the geophysics and survey sectors, being well known for our ability to find imaginative solutions to problems. Being proactive, we make sure that the service we provide is always tailored to satisfying our client's needs, which may explain why our onboard near real-time reports are being hailed as setting new standards and the benchmark in our field.

Ocean Science is an equal opportunity employment company that is proactive in employing a diverse spectrum of people not only from many professions but also different cultures.

Ocean Science also have active research and development facilities for developing unique survey systems and software, an invaluable resource that continually upgrades our capability and assures our future. However, what really distinguishes Ocean Science is the calibre of its people. Being an employee-owned company allows Ocean Science to create an environment where innovation and professionalism flourish through teamwork.

Ocean Science staff brings in over 300 man years of experience and comprise of highly qualified and experienced professionals in the fields of Hydrography, Geophysics, Oceanography and Engineering aspects of Offshore Surveying.

Ocean Science has an extensive asset portfolio, which includes a comprehensive range of modern well maintained survey equipment including DGPS positioning systems, single and multi-beam echo sounders, sub-bottom profilers, side scan sonar, magnetometers, sector scan sonar etc.

Ocean Science has executed numerous submarine pipeline, telecommunications and power cable route planning and survey projects.

Ocean Science is tasked with providing high quality offshore surveying and positioning services to the offshore industry in this region, for which the professional manpower is already available with us. Ocean Science provides innovative engineering geophysical, oceanographic & environmental survey services to the offshore oil & gas industries, submarine telecommunication & power cable industries, and submarine pipeline industries, including state of the art swath mapping and geotechnical capability to full ocean depth. To date company has successfully undertaken 100 projects in Indian Ocean including Middle East.

Ocean Science offers full offshore rig site survey, pipeline and cable route planning, engineering and construction support capability including:

- ◆ Feasibility studies and provisional route planning and selection
- ◆ Pre-survey pipeline and cable route feasibility/desktop studies and route engineering
- ◆ Design of route survey specifications and procedures
- ◆ Route survey and burial assessment
- ◆ Final route engineering
- ◆ Single beam and Multibeam Hydrographic, Bathymetric Survey
- ◆ UXO Surveys
- ◆ Installation and construction survey support
- ◆ Site and hazard surveys including high resolution seismic surveys
- ◆ Short or long term metocean measurement and data analysis
- ◆ Operational oceanography

Ocean Science's objectives:

- ◆ To provide a high quality integrated approach to the pipeline and/or cable route planning and engineering effort
- ◆ To provide customers with cost-effective innovative solutions using leading edge technology
- ◆ To provide a consistent high quality output thus giving customers confidence in risk management
- ◆ To provide reduced planning and engineering lead times through the efficiency of integrating skills
- ◆ To provide enhanced post-construction security for offshore structures, pipelines and cables through dedicated quality procedures and policies

Ocean Science's advantages include:

- ◆ Focused one-stop shop solutions to offshore project planning, survey and engineering
- ◆ Enhanced communications and responsiveness to customers
- ◆ Competitive total solutions
- ◆ Proactive R&D environment in which to develop improvements in technology

Ocean Science provides a fully integrated approach by bringing together the interdisciplinary skills of:

- ◆ Pipeline and cable engineers
- ◆ Permitting specialists
- ◆ Surveyors
- ◆ Geoscientists
- ◆ Installers
- ◆ Pipeline and cable owners and enabling input from each discipline to be considered collectively in the route planning process

The following are the key personnel associated with Ocean Science.

6.	Sneiha Deshmukh	GM – Accounts & Finance	22 years

Ocean Science has the unique distinction of undertaking UXO Survey in Northern Gulf for South Oil Company of Iraq, as Survey Contractors to MUSC who provided the Security and Project Coordination/Management support. Ocean Science team worked for over 12 ship months using two teams to survey and search the designated area and chart UXO's and other obstruction in the area. The work was carried out with the highest quality of data acquired under some of the most hazardous field conditions and processed in record time. The hallmark of entire operation was the data quality and safety records of the project where the total work was undertaken with utmost safety and to the entire satisfaction of clients.

2. OCEAN SCIENCE EXPERIENCE

Ocean Science has wide ranging experience of providing Offshore Surveying services to the Oil and other industries throughout Australia, Asia and Europe. The surveys carried out by Ocean Science since 2006 onwards include Hydrographic, Bathymetric, Geophysical, Geotechnical and Oceanographic surveys for Oil and Gas, Port and Infrastructure and Telecommunication sector and are listed below:

Contract Awarded	Client	Nature of work carried out	Remarks
Sept 2024	Shankar Survey Pvt. Ltd.	Hire of Equipment and Personnel	Mobilisation in progress
Aug 2024	Telecommunications Consultants India Limited	Consultancy partner for DPR preparation on indigenous submarine cable repair facility in India	On-going
May 2024	Zenith Survey (I) Pvt. Ltd.	Hire of Equipment and Personnel	Completed in May 2024
May 2024	AMNS Port Hazira Limited	Magnetometer and Multibeam survey	Completed in May 2024
May 2024	Geostar Surveys India Pvt. Ltd.	Hire of ADCP and Personnel	Completed in May 2024
Feb 2024	SAExploration Inc-Marine	DGPS and GYRO verification for 3 vessels at Mumbai Port	Completed in February 2024
Jan 2024	The Shipping Corporation of India	Provision of INMARSAT based differential global positioning system for ONGC owned Geotechnical Vessel (GTV) SAMUDRA SARVEKSHAK.	On-going
Jan 2024	EGS (Asia) Limited	Provision of Personnel Support onboard EGS Surveyor (Singapore)	Completed in February 2024
Oct 2023	Adani Hazira Port Ltd.	Acoustic Doppler Current Profiler (ADCP), Geophysical (Sub-bottom profiler) Survey & Multibeam Bathymetry survey works at South Gujarat Coast (Bhagod & Nargol)	Completed ADCP work in March 2024
Sept2023	SAExploration Inc-Marine	DGPS and GYRO verification for 3 vessels at Mumbai Port	Completed in September 2023
Aug 2023	Reliance Industries Limited Kakinada	Inspection services for shallow water asset integrity as per SOW for block : KG-DWN-98/3	Completed in May 2024
Jul 2023	National Institute of Ocean Technology	Conducting Bathymetry Survey along the Tamil Nadu Coast.	On-going
June 2023	GAIL India Limited	Side scan sonar survey in rivers at pipeline crossings of DBPL pipeline including SPUR lines	Completed in February 2024

May 2023	Zenith Survey (I) Pvt. Ltd.	Hiring of survey equipment and manpower	Completed in June 2023
May 2023	DNOCS Limited	Services for test/trial of multibeam Echosounder - Payra Port Authority	Completed in June 2023
Apr 2023	International Seaport Dredging	Provision of Multibeam set with operator	Completed in May 2023
Apr 2023	EGS (Asia) Limited	Provision of Personnel Support onboard Ocean Invincible for RAMAN Project	Completed in April 2023
Apr 2023	Amphibia Consultants Pvt. Ltd.	Marine Route Survey (inshore) for RAMAN Fiber Optic Cable System.	Completed in April 2023
Mar 2023	SAExploration Inc-Marine	Navigation Calibration of two vessels Nand Sarthi and Parasea	Completed in March 2023
Mar 2023	Zenith Survey (I) Pvt. Ltd.	Provision of Survey Equipment and Team for Dahej Project Site, Gujarat	Completed in March 2023
Feb 2023	SAExploration Inc-Marine	Provision of 125 KHz Multibeam System at Hazira	Completed in April 2023
Feb 2023	EGS (Asia) Limited	Provision of Personnel Support onboard Ocean Invincible (KSA)	Completed in March 2023
Jan 2023	SAExploration Inc-Marine	Service of Survey Engineer for shallow water hazard survey at Hazira	Completed in April 2023
Jan 2023	International Seaport Dredging	Provision of Single Beam System and Operators at Kakinada	Completed in February 2023
Jan 2023	International Seaport Dredging	'Provision of Multibeam System and Operators at Kakinada'	Completed in February 2023
Jan 2023	Gujarat Pipavav Port Ltd.	Bathymetric Survey for Maintenance Dredging works at Gujarat Pipavav Port Limited (APM Terminals Pipavav)	Completed
Nov 2022	Lightstorm Telecom Connectivity Private Limited	Desktop Study including site visits at Mahuva, Daman and Alibaug site	Completed in November 2022
Nov 2022	SAExploration Inc-Marine	DGPS and GYRO verification for 3 vessels	Completed in December 2022
Oct 2022	DNOCS Limited / OMC Bangladesh	Services for Test / Trial and Training of Multibeam Echo Sounder	Completed in November 2022
Aug 2022	Adani Port & Special Economic Zone Ltd.	Mundra Intake Outfall Study	Completed in October 2022
July 2022	Sati Drugs & Surgicals	Training for Side "Scan Sonar - PULSAR" at Fire & Emergency Services, Assam, Guwahati	Completed in August 2022

July 2022	Petronet LNG	Bathymetry Survey at Dahej	Completed in October 2022
July 2022	EGS (Asia) Ltd.	Provision of Survey Personnel Support for Israel Landfall Survey and Reporting	Completed in September 2022
July 2022	EGS (Asia) Ltd.	Provision of Personnel Support onboard Northern Endeavour	Completed in August 2022
June 2022	Atlantis Consultancy/Lightstorm	Mini DTS at Versova Mumbai, Mandvi, Kochi, Digha, Chennai and Machlipatnam	Completed in October 2022
Mar 2022	EGS (Asia) Ltd.	Site visits for SMW6 cable project in India (Mumbai and Chennai)	Completed in May 2022
Feb 2022	Shree Krishna Stevedores Pvt Ltd.	Search Survey of sunken vessel Shree Krishna VIII off Goa	Completed in February 2022
Dec 2021	Tata Communications Transformations Services Limited	Selection of Independent Monitoring Agency for Submarine Optical Fibre Cable Project for Kochi Lakshadweep Islands	Completed in May 2023
Nov 2021	EGS Asia Ltd	Support services on vessel Northern Endeavour for IAX/IEX project	Completed June 2022
Nov 2021	Amphibia Consultants	Marine Route Survey for Submarine Fibre Optic Cable System Projects, at West Coast and East Coast of India	Completed June 2022
Nov 2021	Atlantis Consultants Pvt. Ltd.	Mumbai (Juhu and Versova) site visit for Desktop Study	Completed in November 2021
Sept 2021	Petronet LNG Limited (Dahej)	Bathymetry Survey at Dahej	Completed in December 2021
Sept 2021	UltraTech Cement Limited	Topography Work at GCW and Topography & Marine Survey Work at Jafrabad	Completed in October 2021
Sept 2021	SARK EPC Projects Pvt. Ltd	Offshore CIPL survey on Uran Mandwa pipeline for GAIL Mumbai Project	Completed in December 2021
Aug 2021	The Shipping Corporation of India Limited	Provision of INMARSAT based differential global positioning system for ONGC owned Geotechnical Vessel (GTV) SAMUDRA SARVEKSHAK	Completed in December 2023
Aug 2021	EGS (Asia) Ltd.	RAMAN - Site visit in Mumbai	Completed in August 2021
May 2021	Zenith Survey (I) Pvt. Ltd.	Geophysical and Bathymetric Survey at Omkareshwar site in Madhya Pradesh	Completed in February 2021

Feb 2021	GeoAcoustics Ltd.	To complete SAT on GeoPulse + System on NIOT Vessel Sagar Anveshika	Completed in February 2021
Dec 2020	Sapura Engineering & Construction (India) Pvt. Ltd.	Barge Positioning & Survey System (Jamnagar)	Completed in August 2021
Dec 2020	Dahej Harbour Infrastructure Limited	Bathymetric Survey for DHIL Jetty during Pre, Interim and Post Dredging	Completed in January 2021
Dec 2020	Narmada Water Resources	Conducting Bathymetric Survey of Reservoirs of Saurashtra Region under National Hydrology Project	Completed in August 2021
Sept 2020	Atlantis Consultancy	Site visit supervision of IAX/ IEX - Malaysia	Completed in September 2020
Sept 2020	Dredging Corporation of India Limited	Provision of Surveyor to act as DCI Rep for ongoing survey works at JNPT	Completed in Oct 2020

3. ASSET PORTFOLIO

Ocean Science has a substantial asset portfolio comprising modern state of the art equipment. The deep water systems are mostly installed on our associate / group company's vessels and can be used subject to availability. Ocean Science has also developed easily transportable modular survey systems that can be rapidly mobilized on to vessels of opportunity anywhere in the world.

3.1 Principal Survey Systems

3.1.1 Multibeam Swath Echo Sounders

- ◆ Simrad EM-124 full ocean depth multibeam echo sounder (1 system)
- ◆ SeaBeam 1180 500m depth capable multibeam echo sounders (4 systems)
- ◆ SeaBeam 1050 3000m depth capable multibeam echo sounders (3 systems)
- ◆ Simrad EM2040C (200KHz to 400 KHz) high resolution high speed 400m depth capable multibeam system
- ◆ Reson 8125 400 kHz very high resolution multibeam system
- ◆ GeoSwath GS4 shallow water multibeam system (500, 250 & 125 KHz)
- ◆ R2Sonic 2024 (200-400 KHz) high resolution multibeam echo sounder (1 system)

3.1.2 Sonar Imagery Systems

- ◆ Klein 5000 1,000m depth capable sonar systems (2 systems)
- ◆ Klein 2000 1,000m depth capable sonar systems (6 systems)
- ◆ Edgetech 4200 6000m depth capable sonar systems (6 systems)
- ◆ GeoAcoustics SS 980 Side Scan Sonar System (2 systems)

3.1.3 Sub-bottom Profiling Systems

- ◆ GeoAcoustics 4 x 4 3.5 kHz hull mounted systems (4 systems)
- ◆ GeoAcoustics 2 x 2 3.5 - 7.0 kHz chirp towed systems (4 systems)
- ◆ LVB Systems Low Voltage Boomer (8 systems)
- ◆ Edgetech 3400 Sub-bottom Profiling System (1 system)

3.1.4 Magnetometers

- ◆ Geometrics 880 Caesium 1,000m depth capable magnetometers
- ◆ Geometrics Gradiometer for UXO survey (3 systems)
- ◆ Marine Magnetism Corporation SeaSpy Overhauser proton magnetometer (6 systems)

3.1.5 Oceanographic

- ◆ 600/1200 KHz Acoustic Doppler Current Profilers (6 systems)
- ◆ Automatic Weather Stations
- ◆ CTD, Water Sampler

3.1.6 Geotechnical Equipment

- ◆ Datem Neptune 3000 Mini Cone Penetrometer capable of operations up to 3000m water depth
- ◆ 3m and 6m Kullenberg gravity piston corers
- ◆ Quaternary Resources Vibrocorers 150m depth capable with variable core length up to 7m
- ◆ Core Grab Sampler

3.2 **Software**

- ◆ C-View Seabed Data Management System
- ◆ CODA
- ◆ Montaj
- ◆ Eiva Navipac
- ◆ Hypack Max
- ◆ QINSy
- ◆ Autocad
- ◆ CARIS

3.3 **GPS Positioning**

Ocean Science uses Veripos Positioning system and is authorized reseller and service representative of the same in South Asia. This is a decimetric dual frequency system providing baseline independent accuracies of +/- 0.2m horizontal accuracy, and +/- 0.3m vertical accuracy.

4. PERSONNEL

The Ocean Science workforce comprises more than 250 skilled personnel. Personnel are drawn from the following professions:

- ◆ Geophysics
- ◆ Geology
- ◆ Hydrographic Surveying
- ◆ Geodesy
- ◆ Topographic Surveying
- ◆ Geotechnical Engineering
- ◆ Mining Engineering
- ◆ Oceanography
- ◆ Environmental Sciences
- ◆ Electronics
- ◆ Computing and Software Development
- ◆ Civil and Coastal Engineering
- ◆ Cartography
- ◆ Mathematics
- ◆ Hydraulic Modelling
- ◆ Chemistry

5. ISO CERTIFICATION

Ocean Science has been accredited by IRQS with Quality Management System standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 & ISO 29001:2020.
